# Research Advisory Committee-2021-2022

## PROCEEDINGS

The Advisory Committee met on 06<sup>th</sup> January 2022 and discussed the following agenda

**Modifications in the research policy if any-**The members felt strong need for purchase of paid version of plagiarism check software because the college has the practise of checking the plagiarism free software. Further the committee suggested contacting the parent university or other reputed institution about authenticity and reliability of software.

Regarding research centres the committee felt the stressed need to have independent research centre in the college and it suggested the IQAC to take up the matter with a serious view.

**Expansion of lab facilities for research work-**The committee went round the laboratory facilities and got the inputs from department heads and felt that there is an urgent need to augment research infrastructure to the existing ones or construction of new research labs wherever feasible in all science departments in general and departments of Chemistry, Botany, Microbiology, Biochemistry and Biotechnology in particular Physics.

Regarding the circulations of suggestions of Advisory committee. It was resolved to circulate the suggestions of advisory committee amongst all the staff members either offline or online.

The committee advised to publish the articles in UGC care list; all Scopus indexed journals and web of science journals.
