Report on Language Lab

The Onus of English Language enhancement among learners lies with the institution. A good English language lab when established and used by an institute can do wonders for the learners. The learners develop a continuous interest to learn the language as it encourages them to understand it and facilitates the understanding of the concepts of the language.

Our English Language Lab is designed to provide the learners with a strong platform for practical training in the language. It develops the language skills of the learners skilfully and efficiently. The students are exposed to functional language in use and are familiarised with many pronunciation styles that are vital in everyday usage of the English language in today's world.

A blended methodology of language teaching is adopted in the language lab, the human touch brought in by a physical teacher (during the classroom session of the language lab) ensures a live delivery of language concepts. These concepts are discussed and where need be demonstrated by the teacher before the learners proceed to practice them individually in the computer based section of the language lab. Learners hence get ample scope for practice and internalization of language concepts. Language labs also provide scope for using English Language through games and practice exercises to polish concepts learnt during classroom sessions.

A Language lab plays a great role in making the institutions' teaching method successful in a very novel way.

The Language Lab Committee of the academic year 2021-2022 was constituted with the following faculties of the Department of English.

- | | |
|-------------------------|------------------|
| 1. Dr H B Suresh | Coordinator |
| 2. Dr.N.Mallika | Visiting Faculty |
| 3. Lalithamba M B | Member |
| 4. Poornima S | Member |
| 5. Arjun.P | Member |
| 6. Suphalaswaruparani S | Member |
| 7. Yogesha H | Member |

Programme:

The Clarity software and Sky softwares of English multimedia language lab based solutions are installed in the college language lab which is purchased as a global licence by the British Council.

These softwares contain the following concepts to enhance all the four basic skills of language, such as listening, reading speaking and writing.

These softwares offer a very innovative range of customized English teaching software courses which has a rich multimedia content and strong emphasis on key learning areas of study skills, listening, grammar, IELTS preparation, Vocabulary, pronunciation, authoring, integrated skills and more.

The language lab conducts three months communicative English course for the final year students and issues the certificates for the successful completion of the course.

The Language Lab programmes

SKY PRONUNCIATION

SYSTEM REQUIREMENTS

Sky Pronunciation is designed to run on Windows 2000 , XP, Vista, 7, on standalone machines or networks.

Sky Pronunciation streams audio & video, but no special hardware is needed. The computers should have headphones, ideally with a microphone, & a monitor with at least 800x600 resolution.

INSTALLATION

Sky Pronunciation can be installed on either standalone computers, or onto a networked server.

Double-click on the setup.msi, choose your preferred option and follow the procedures as set out in the installation process. Please note that in both cases it is a requirement of the installer that it is run with administrative privileges.

If it is your intention to install the network version then it is recommended that you actually install on the server itself, rather than to the server from a remote client. The procedure will go on to direct you in installing across client machines.

Windows 7 Users

If, while installing, you get a message saying: "**The installer has insufficient privileges to access this directory etc.**" this means that you need to switch off the User Account Controls in Control Panels.

THE PROGRESS FILE

Sky Pronunciation has a progress file for learners to check on their progress in the areas tested. To keep a score, each person who uses the program must first register and then log in each time they enter.

P.T.O.

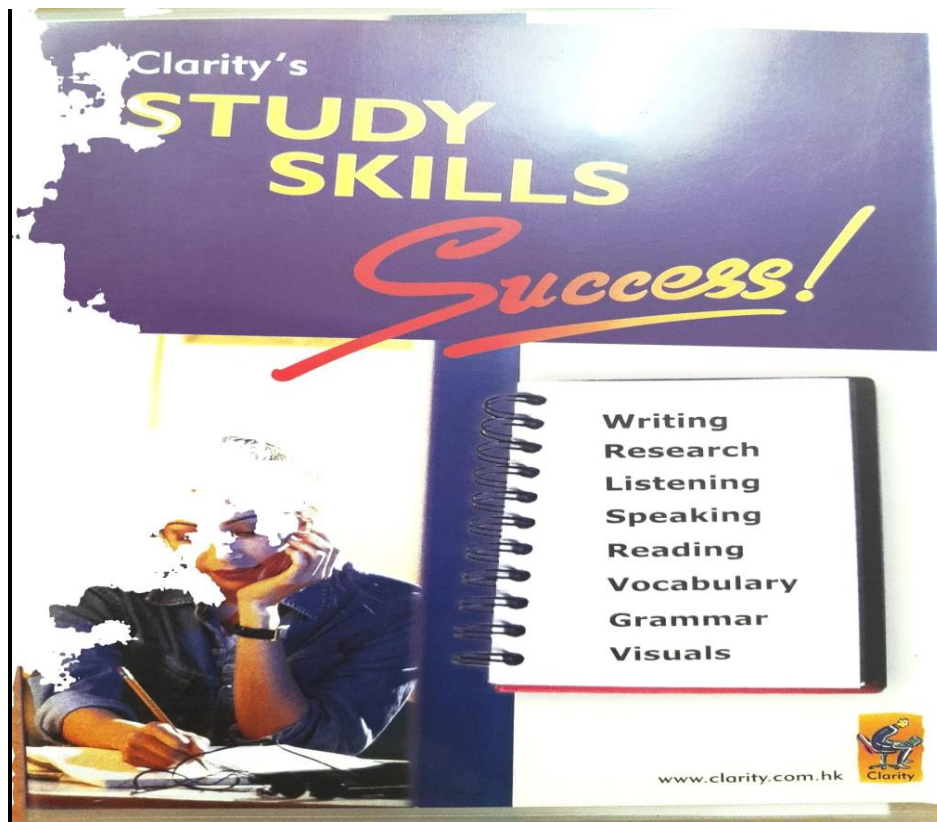

Clarity English Success

Curriculum-based English learning

What is Clarity English Success?

Clarity English Success helps learners both to understand English, and to use it effectively. The curriculum-based learning content is presented in an Indian accent with names, places and situations that will be familiar to learners, smoothing the learning process. The program covers the essentials of grammar, reading, listening, writing, speaking, and pronunciation - all easily accessible from a single screen. Suitable for classwork, homework and extra study in the library, learners will find Clarity English Success easy to use, effective and enjoyable.

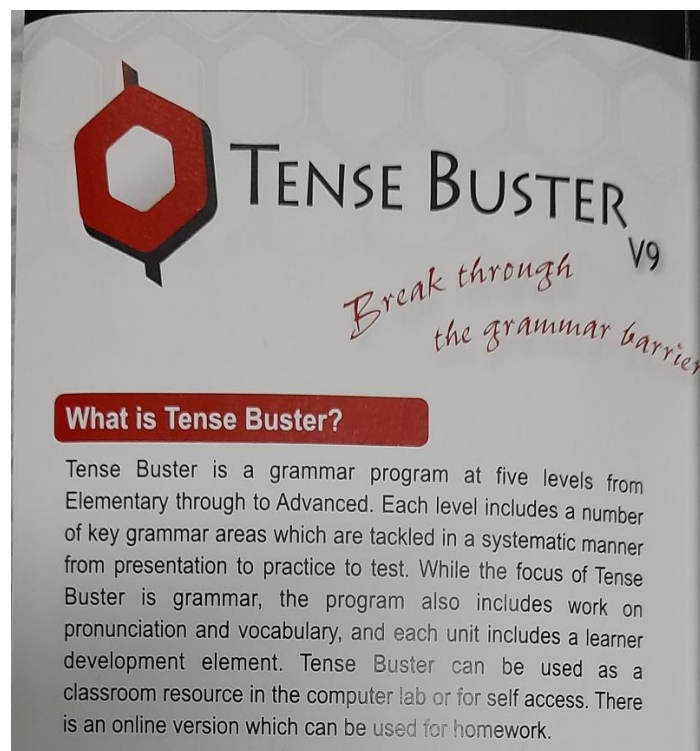

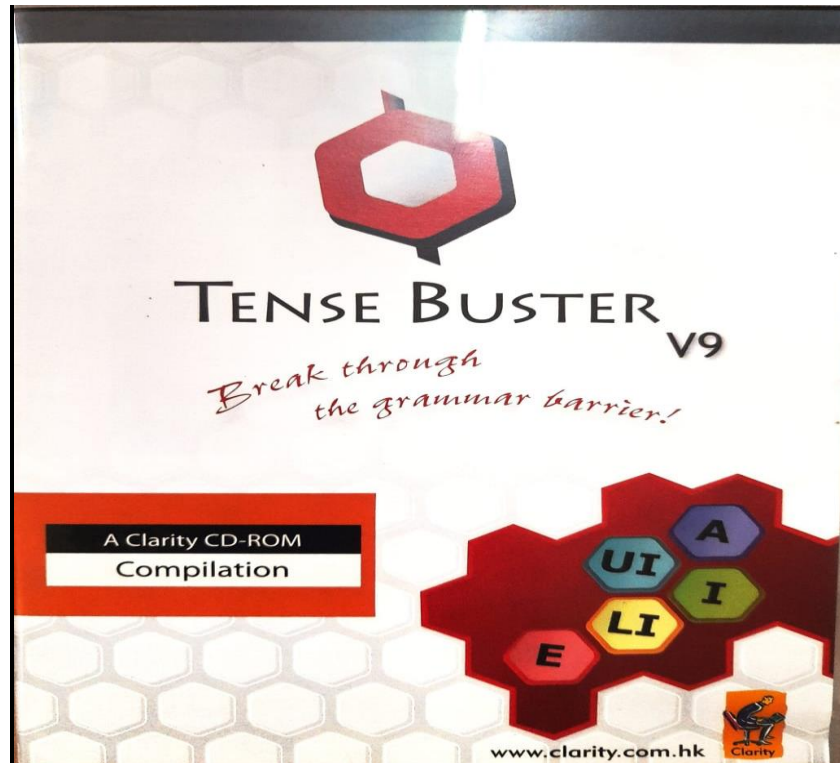

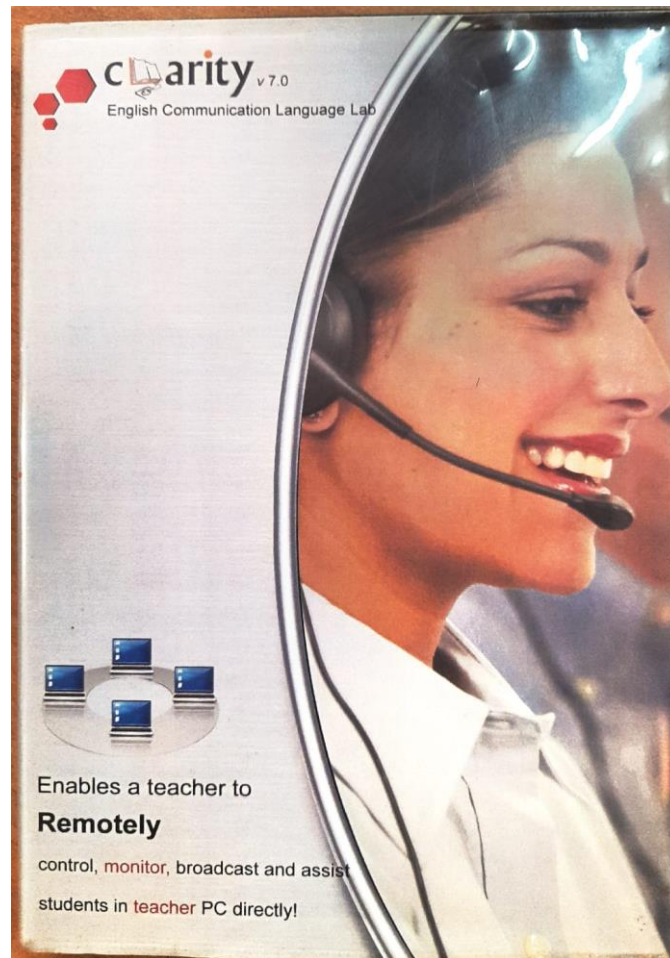

STUDY SKILLS *Success!*

What is Study Skills Success?

Study Skills Success is a complete study skills course aimed at learners in the final years of secondary education or at any stage of higher education. The program tackles key areas of competence, such as listening to lectures, note-taking, essay writing and research, and in these areas is as useful for native speakers as for ESL learners. It additionally helps ESL learners with grammar and vocabulary strategies. Study Skills Success complements IELTS and TOEFL and other higher level English exams and sits comfortably within the remit of GCSE.

Study Skills Success is available in International English and North American English versions.

This software enables a teacher to remotely control, monitor, broadcast and assist students in teacher PC directly!

The Functioning of Language Lab
