A holistic 360 degree approach to training is adopted and helps them hone their fundamental computer skills followed by insights into Wipro businesses, process, technology and behavioral skills.

To understand and appreciate the mindset of the young Trainees and ensure that the transformation is smooth, the induction program is done by a team of dedicated professionals who have exposure to the academic and corporate sectors alike. Project Readiness Program (PRP) is a training program designed to address the basic learning needs of the Trainees.

Corporate Readiness Program - CRP

Technology Readiness Program - TRP

The technology training provides critical technical skills required to work on projects allocated to Trainees and prepare to face the demands of the project world. We begin doing this by familiarizing with Wipro's businesses and work environment.

The methodology of training is "Project Based Learning" (PBL) approach, the entire learning is designed around a series of projects that the recruits are expected to complete individually by learning and applying various topics required to complete the project. Topic: IMPACT OF SOCIAL MEDIA ON YOUNGSTERS

Social media has been ingrained into our society today to such extent that it is virtually impossible for people to take you seriously, if you are not on any social media platform. Everyone is on social media-young, old, rich, poor etc. Everyone is always in a frenzy when it comes to socializing online. Even the corporate world has jumped into the bandwagon and companies are very active online, posting updates and answering queries.

There are many social networks to choose from; some of the popular ones include Facebook, Twitter, Snapchat and Instagram. As the popularity of social media keeps on spreading all over the world, there have been mixed feelings about these networks and how they impact the youth.

We have to look at both the positive and negative impacts of social media on the youth. Going with the former first, social media has reduced the world to a global village. Youth can interact with people from other parts of the earth by just a click of the button.

Through these interactions, young people can share ideas, acquire information and also be exposed to many opportunities out there. Secondly, social media give them the avenue and opportunity to make new friends and also allows them to maintain their old friends. With social media, they can trace their

former friends by simply typing names or just indicating the school they attended. Then, the network will do all the dirty work and link them to all people they went to school with.

Apart from just socializing, the social networks have become frontiers for the corporate world to advertise their goods and services. In addition, they can earn a considerable amount of money by running podcasts or playing at Hyper casino.

On the flip side, the internet is an unregulated world that has no form of morals or laws to abide to. Young people are exposed to gore images of murder victims, accidents, rape cases or even video footages of gun shootings, violence, verbal outbursts, nudism and explicit sexual content. All these kinds of gore content are in the domain of young people and when consumed for a long time can lead to serious mental breakdowns.

As Albert Einstein once said, "I fear the day that technology will

idiots." Social media is a great way to
